

**PROLINE**

**2018**

## ABOUT US ;

Proline Metal, which always aims to grow and continues its investments in the industry with this understanding, has an annual flat product processing volume of 5,000 tons and produces high value added products. Since its establishment; has become one of the leading companies in its sector with its investments, compliance with global quality standards, use of state-of-the-art equipment and rapidly developing structure.

Proline Metal, which sells steel service cold sheet, galvanized sheet, painted sheet and sheet products together with the production processes of Drywall, PVC, Shutter, and Shutter Profiles, is produced in a dynamic organization based on providing the best logistics service to the customer. and foresees the needs of the companies with which it works, and offers appropriate solutions.

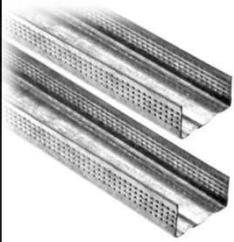

Proline Metal , are manufactured from hot dip galvanized steel sheet metals which has zinc coating on both sides. We always supply A class raw materials from Turkish Standards Institute's (TSE) certified plants.

For shipments we request EN 10346 standard. Zinc coating is requested min. 100 gr/m<sup>2</sup> and stored in closed warehouses to protect against sting and oxidation. Every step of production is controlled according to TS EN 14195 standard.

## ANALYZE OF PLASTERBOARD SUSPENDED CEILING

(Quantities might change according to different projects. No wastage is considered.)

We have collected all the necessary items for the application of 100 m<sup>2</sup> drywall in a box. This will provide you the benefit of controlling items spared in construction sites.

- \* 500 Pieces of clips
- \* 250 Pieces of anchor - 45 x50 screw
- \* 100 Pieces of steel anchor
- \* 2000 Pieces 2,5 x 35 Pointed Screws
- \* 100 Pieces of hanger plate
- \* 50 Pieces of extension piece
